THE FATHER OF OUR COUNTRY.

TF GEORGE WASHINGTON were alive today and witnessed the part as follows: part which the United States is playing in the struggle for of the faculty and students in the or language tending to breach of world democracy, compared with which all other wars in history Tonopah public schools, ladies and the public peace. pale into insignificance, he would indeed be proud of his off- gentlemen: spring. This is still following his doctrines and endeavoring to live up to his ideals after the lapse of nearly a century and a half.

Let it be remembered that Washington bore no bitterness against the English people. It would indeed gratify him if he day, I wish to pay a tribute to one innocently, though ignorantly, procould know today that the war he waged has left no sears of for whom the flags are flying in claim something of disrespect to our battle, and that as the mayor of Southampton said yesterday when greeting the survivors of the Tuscania: "I have always seas, and at the same time it for even without intent you may considered you Americans as cousins; now you are as brothers."

THE BALL STARTS ROLLING.

ET the slogan of all newspapers in all mining regions be "Roll the ball to Washington!" The Bonanza is getting it started and it will grow as it is propelled forward through the aristocrats, but they also are pray snow. An election for congressmen and United States senators is ing today as did Christ and George approaching and all candidates should be firmly pledged to the Washington that the world may be repeal of the iniquitous apex law or denied support

SOME TAXES IN RUSSIA. THE fact that both passenger and cargo steamer companies operating across the Atlantic paid enormous dividends last year is difficult to reconcile with the reports of sinkings. It is in a state, although not such as very evident that a most material increase had been made in rates. No wonder the war is costing so much, the expense of raw material, finished product, labor and transportation having gone skyward. And now witness how the taxes have become prohibitive abroad. A dispatch to the Bonanza today says that the new rates on automobiles in Petrograd is \$75 per horsepower, which is, of course, confiscatory. Dogs in the Russian capital must be worth \$25 a year each to their owners or they will be bayonted. We are beginning to think in such high figures that why should we worry if fried potatoes are extra and a charge is made for a second helping of butter? Thank the Lord, we don't own a beagle pack and a flock of jitneys over in erstwhile St. Petersburg. It's worry enough to have a Dodge and Nig.

HIS RE HIS HIS HIS PILL HIS THE ADMINISTRATION BILL.

HE vote on the administration bill, which may take place today, will be awaited with great interest. It is well to give the president power to co-ordinate the government agencies and to do any and all acts that must be performed at once, when there arises an occasion, the exigencies in which must be met at once, the time being too brief to permit congress to get into action. The Bonanza has extreme confidence in the judgment and ability of the president and in some of his cabinet members, but there has been great criticism of the acts of some of the latter and the proposed co-ordination might accomplish great good. The chief danger in the administration bill lies in the precedent of cen-

tralizing power such as never before was dreamed of in this republic.
